

EXPERIENCE

Next.js Developer Intern

Working as an Web developer intern in Achintya Solutions

Working on multiple projects in Next.js

PROJECTS

Music School Website

Technologies: Next.js, Aceternity UI

It is an Music School Website with beautiful UI

Used Aceternity UI which is fairly new library and buggy. Faced a lot of challenges in solving the bugs

SEO Rank Tracker

Technologies: MERN stack, axios, recharts and Next.js

Developed a full-stack SEO Rank Tracker application using Next.js, BrightData API, and MongoDB. Implemented Google Authentication via NextAuth.js and integrated dynamic charting with Recharts. Created custom APIs for fetching domain and keyword data, providing actionable SEO insights through intuitive graphical representations.

Developed the complete backend wrote APIs from scratch and designed the frontend using libraries such as Recharts and axios to fetch data

Incog Note

Technologies: Next.js, Zod, axios, ShadCn, react-hook-forms

Incog Note is a full-stack web application where users can ask anything they want anonymously, which has features like otp verification and AI implementation

Developed the complete backend and frontend from scratch of this project
